25 sites – Just $20/night

Each site has a large picnic table and a fire ring to tell your favorite stories around. The sites are heavily wooded and there is plenty of downed wood – feel free to collect the wood for your fires while you are staying here. It is your responsibility to check the current Michigan laws regarding transporting wood to this location www.michigan.gov.

For your convenience, there are two privies which are located at opposite ends of the grounds.

Drinking water is available at the well house near the entrance. The 300' plus deep well ensures a cold drink is always available. Because this is a primitive campground, no threaded connections for water are allowed.

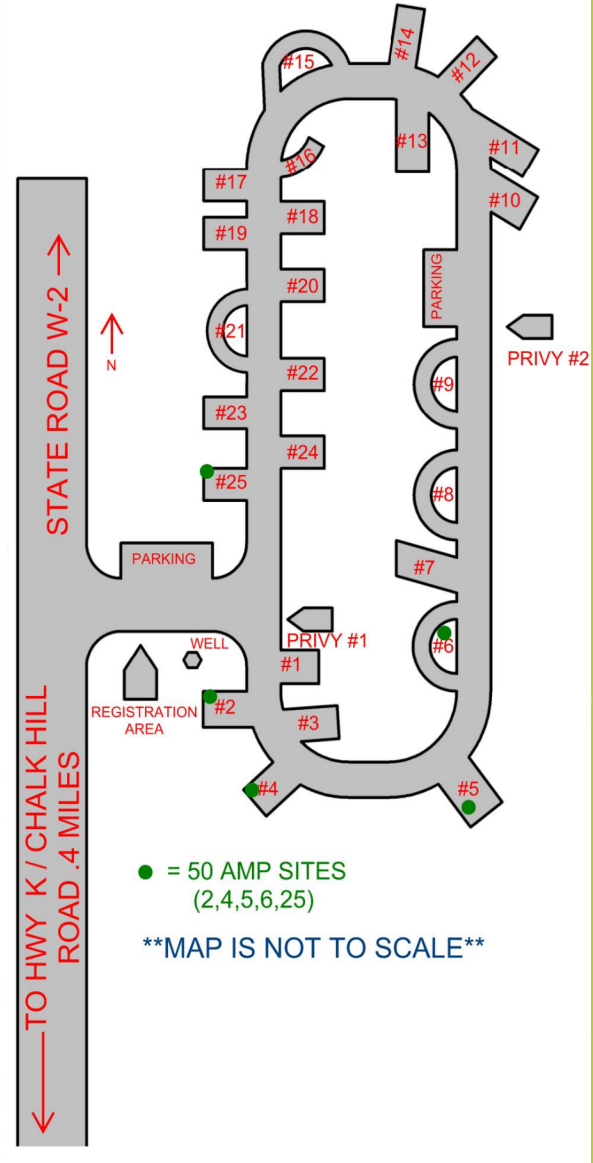

The playground area includes swings, twirling bars, and a sandbox. There is also tether ball and horseshoes for your enjoyment, or walk the half-mile trail thru the woods and listen to the birds singing.

Thank you for your interest in staying with us.
